

Third Grade

On behalf of the third grade class, I would like to take this opportunity to thank Mrs. Shull, our Faith in Action coordinator. Each month, like clockwork, she visits our classroom with a wonderfully prepared lesson (including all materials!) that engages the students in a faith-based

discussion and activity to benefit our surrounding community. We all look forward to her visits and I admire and appreciate her tremendously!

As we enter the fourth quarter, third graders look forward to Holy Week and Spring Break.

Upon our return from the Easter recess, report cards will be distributed and discussed at your child's conference on Thursday or Friday, April 27 or 28 as the third quarter ends April 5th.

This month we will continue our study of geometry and measurement and continue practicing multiplication, division and problem-solving skills in **math**. In **social studies** we will continue learning about California's communities and government. We will complete our physical science unit and begin studying the solar system in **science**. In **language arts** we will continue to practice our writing skills as we write essays and respond to **literature**. In **religion** we will become more familiar with the **Bible** as we read and discuss Passover, the Crucifixion and Resurrection of Jesus, parables and psalms.

It's going to be a very busy, challenging and exciting fourth quarter! I hope everyone returns spiritually and physically renewed after Easter break!

Blessings,

Mrs. Connell
