

SEPTMBER

Welcome 5th graders! Hope everyone enjoyed the summer break. I am so excited to start this school year, teach your children, and watch them grow and learn. We are going to have a fun-filled year!

In religion, we will discuss how Jesus shares God's life with us. Jesus shows us God's love in many ways and asks us to follow Him. We will learn how the disciples continue the work of Jesus.

In math, we will learn about place value up to billions, addition properties and subtraction rules. We will discuss thousandths, expanded form, and decimals greater than one.

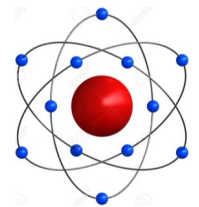

SOCIAL STUDIES

In social studies, we will learn about the U.S. and its regions, American Indians of the Southwest, the Pacific Northwest, the Great Plains, and the Eastern Woodland areas.

**** Please make sure students have registered and are ready to use Studies Weekly on-line. They will need to use it for homework.**

In science, we will learn about the building blocks of matter. We will read about elements, physical & chemical properties, atoms, molecules, and compounds.

In language arts we will practice writing sentences with nouns and verbs and also learn about subjects and predicates. We will work on writing skills such as using complete sentences.

****Graded homework will go home every Thursday for parents to review. Please initial each paper (no signature, just initials) so I know you have looked it over. Please return on Friday.**

**** Please sign up to use the Remind App!**

**** Please have Bridge to Terabithia in class by Sept. 7th!**

Thank you for your support!
